

CSE 4940 Week 19 (Spring 2025) - Sage Pia

4/14/2025

This week, I refined the presentation we made for Open House 3/30. First, I downloaded a template from SlidesGo to improve our aesthetics. Then, as per Professor Song's advice, I worked on trimming the text and adding more visuals. I also edited and refined content across five of the six categories we agreed on (Background, Motivation, Methodology, Evaluation, and Demo). The only things I refrained from changing were the Future Goals content and anything related to OFA. To preserve the talking point of each slide, I wrote speaker notes on most of the slides. This week, we need to finalize the presentation, assign sections to each member, record the audio, and make a video.
